Mr. & Mrs. John McGowan
144 Roberts Avenue
Glenside, PA 19038

Dear Mr. & Mrs. McGowan:

On behalf of the Breast Health International, I should like to extend my most grateful appreciation to you for your incredibly generous donation in the amount of \$2500.00. It is because of the commitment made by individuals like you that we are capable of carrying out our mission to eradicate breast cancer.

Our most important accomplishments of this past year have been the continuing sponsorship of our Consensus Conferences, the Breast Fellowship and our Fund for Living. The Consensus Conferences have brought together some of the world's leading breast cancer scientists to discuss and debate controversial topics of contemporary interest in breast cancer. Our fellowship program trains the next generation of breast cancer experts who will continue to provide state-of-the-art care to their patients and to their communities. The Fund for Living provides assistance to women with breast cancer and their families to cover unique problems associated with their care that may not be covered by traditional health insurance.

Thank you for your interest in our most important activities. Hopefully, the differences that your contributions may provide will help to end the suffering that this terrible disease produces.

Sincerely,

A handwritten signature in black ink that reads "Shelley Schwartz". The signature is fluid and cursive, with the first letters of each word being capitalized and prominent.
